TO MY MANY PATRONS AND FRIENDS

It is with the greatest of pleasure that I present to you, this my twenty-second catalogue and price list of Dahlias and Gladioli, and to thank you for the patronage you have given me in the twenty-two years I have grown them. I shall endeavor the coming Season to send out only the best of stock and true to name, to arrive in good growing condition, and will replace any that are not satisfactory.

With best wishes I am yours for more and better Dahlias and Gladioli.

W. D. HATHAWAY.

MY STOCK consists of pot roots and field grown roots. Where I cannot send roots I will supply in plants, at reduced prices from roots.

ORDER EARLY as stock of some of the latest varieties is limited owing to the many orders taken in the fall.

WHERE STOCK IS EXHAUSTED I do not substitute, but return money unless otherwise ordered.

HOW TO PLANT

First spread your dressing or fertilizer on the top of the ground, spade in to a depth of 12 or 18 inches, mixing thoroughly with the earth, dig the holes 5 or 6 inches deep, lay the tuber flat down and cover. Do not water until the sprout shows through the ground, keep the ground well cultivated, do not allow it to get baked around the plants, only allow one stalk to grow in a place.

TERMS. Cash with order or in advance of shipment.

DECORATIVE DAHLIAS

We have observed during the last few seasons a growing tendency on the part of the public who frequent Horticultural Exhibitions to favor the exhibits of huge Decorative varieties. This impressed us so much that we decided to grow all the introductions, and to select therefrom those which pleased us in regard to habit of growth—particularly the way in which the flowers were produced upon the plants—floriferousness and general effectiveness in the garden. In size they cannot be equalled and for decorative purpose they are unexcelled.

GLADIOLI

The Gladioli is fast becoming one of the best for cut flowers, lasting as they do a week or more if cut the morning after the first bud opens. Do not despise a young bulb of medium size, as they will give you the best flower spike where an old, large bulb will throw up two or more inferior spikes.

While every care is exercised at digging, planting and packing that none should be mixed, no guarantee is given other than to replace any stock that may prove not true to name. All prices are subject to stock being unsold.
